Nucleic acid-based molecular typing: the restriction endonuclease cleavage method. A procedure was developed for identifying individuals based upon the study of their restriction endonuclease patterns. After being shown that a 32P-labeled primer-extended DNA template forms a single band of defined intensity on electrophoresis under denaturing conditions, the method was applied to HindIII-digested DNA from the short arm of chromosome number 12 of three individuals. HLA-DRB genes were typed in the first two individuals and one of these individuals was found to possess two different HLA-DRB genes. The third individual, by contrast, was found to be homozygous for the same HLA-DRB gene as one of the first two individuals.Pioneer DJM-500 (MIDI controller), Pioneer DJM-500 (MIDI controller) The Pioneer DJM-500 is a MIDI controller keyboard that can be connected to computers running DJ software (such as Turntable DJ 570a42141b
