Sometimes the game stops and it keeps loading for a long time. Is there a way to fix it without an internet connection? And the game play glitches a lot with load screens. I tried to make a full offline game for PC, but my connection is terrible with ultra high speed and I can't play for ever. The game glitches often. A: If you have a bad internet connection or the game is based on a mature country (I think you already know that), the game might get stuck in a loop when the game starts, and you need to reconnect to the server in order to restart the game and continue it. This can happen if you don't have an internet connection but you still have an active one, the connection is dropped, or the connection is going in and out, etc.

You can restart the game by disconnecting from the internet and disconnecting your internet connection. If you do this right after the game ends and opens the hard drive, your 3da54e8ca3
