Hello, here you can get FREE Delphi / Autocom activation for cdp or .n "File activation" il est sauvegard? mais sous "d?marrer" il y a en .n What a news! Polish language) You need to remember this method as long as possible !!! We try on the local machine, check what happens. It works, try also on Windows. I don't have a problem that I don't understand anything at all, I just get carried away wildly. (Lyric-Slavonic) THIS IS NOT A DISEASE, IT IS A SIGN OF OVERCOMING I'm tired of the Russian language. I'm tired of Russian culture. I need to get out of here. I chose Spanish. (From an interview with Mikhail Gorbachev) The official phrase in Spanish "En Viajeros" sounds like "O Villarroso" (Wilarroso), and Villarrosa street itself is called "Bairoskaya". (But there is also a second meaning "boulevard")) Alejandro Cesar Cortázar says that "Villarroso is a song. It's like love, it's a feeling that overwhelms you from the inside, and you can only express it in this way. You just have to dive into it and it won't let you go. You can scream and cry, you can scream to get it out and then stop it. And together we can't stop this song." Bueno! Beginning (address bar) as a pattern for writing a phrase. In Russian "I miss you." In English - "I want you." Contrary to popular belief, there is no word for "sorry" in English, and the phrase is just a polite way of expressing thought. In this regard, other options are used: I want to, I shall miss, I hope, I would like, I will miss, to see you Try also in Ukraine, Russians can be understood. Also an example of writing: I want to confess everything to you I intend to propose to you. I hope you will forgive me. I would really like to see you. To express emotions
