A preliminary report. There are many manual and mechanical vibrators in use, including those for which the vibrator is adjustable. For the past several years, the Illinois Dental Laboratory has been developing a sonic variable vibration (VV) with which the most difficult cases are successfully treated. In addition to the positive scientific findings, there have been very few adverse effects. No inflammation, necrosis, or resorption of bony structure has been reported. A series of preliminary cases are presented. The patients treated were between 18 and 38 years of age. The vibrators used were the Illinois Dental Laboratory vibrometer and the Microtitillator vibrator.The Beat Bus, a music bus that has toured the world playing various U.S. cities in support of Amanda Palmer's 2014-15 tour, will be returning next year for a series of six shows in Austin, Texas. The Beat Bus will perform at The Parish (501 N. Barton Springs Rd., Austin
