Category:Microsoft OfficeQ: 404 issue with verticle only? If I run this verticle on port 8080, it works fine: However, if I try to run it on 8081, I get a 404 error. The documentation doesn't mention anything about this. A: port 8080 is default port for tomcat which is an embedded webserver, it's not related to vertx. So you can't run vertx application on 8080 or 8081 port. Check the documentation for vhost with port 8081 or try to change port to 8 3da54e8ca3
