QuarkXPress QuarkXPress is a publishing program that both novice and experienced users can use. It specializes in page layout, although you can accomplish so much more with it. Indeed, the menu system is so complex and unwieldy that even pros seem to struggle with it at times. QuarkXPress' origins go back to the 1990s. The company set out to provide a program that would greatly simplify the publishing process. Back then, before the introduction of multimedia, a publisher had to create a layout at the computer screen using the page editor. A printer received the file and printed the layout, and the publisher was done. Fortunately, QuarkXPress was launched in the late 1990s and has been growing ever since. One of the hallmarks of the program is the easy-to-use, pop-up feature of the editing tools, making it very friendly to the novice user. Although the terms publishing and graphics interchange (GIF) came to the fore with Adobe's Photoshop, QuarkXPress also offers dedicated design tools to let you create the look of a publication or marketing communication. A robust feature set is available, and support for different layouts and the automatic positioning of text and graphics is excellent. For more information on QuarkXPress, check out its website at `www.quark.com`.

Q: Possible to update Azure App Service URL via CSV file? I need to automatically update the Azure App Service's URL using the same tool we use to maintain sites on-premise. What's the best way to achieve this and should I just use SQL or is there an easier way? A: As Ben Voight said in his comment: Of course you can! Just set the web.config setting: // Copyright (c) Microsoft Corporation. All rights reserved. // Licensed under the MIT License. What's New in the?

Salah likes PSG for big links, says Sadio Salah is keen to play regularly for his club and has already sparked rumours of a January move away from Liverpool to Paris Saint-Germain. The 23-year-old Egypt international has scored a remarkable 54 goals in 91 appearances for Liverpool since arriving from Roma in the summer of 2012. "To start a new adventure, to play in a different country, it is a good opportunity," Salah told Sky Italia. "Also the return of the Champions League would be ideal. "I would like to play regularly for Liverpool. I want to be integrated and have more communication with the team. With an Italian side it would be harder because of my foreign origins." French national team coach Didier Deschamps, who could be keen to call up the No.11, was also quoted by Reuters on Wednesday to say the England forward was good "in the moment of the big moments" and could be "difficult to resist" when France is under the limelight. "It is really nice because he can make a difference when the team needs a difference," the 58-year-old coach said. Salah already has seven goals in seven games since being recalled by Rodgers from his ban in October for biting Chelsea defender Gary Cahill.
