We need that for 4 systems, so it has to be a lot cheaper than the individual license. Can this be done? If so, how? Cheers, Mal I believe the 4 user license is one time when it's $99 but the price drops as more systems are added. If you're referring to individual licenses it doesn't make much sense to get the whole dev bundle as you're only getting four individual licensing's. Otherwise, it's a 1 time licensing fee of $99 plus $4 per additional system. Cheers, Mal 08-02-2013, 11:33 AM GOOGLE_BARRY_ALLEN You have a question, or suggestion, for Microsoft?
