DKOSD - Caps Lock Download

DKOSD - Caps Lock is a small and portable utility that notifies you whether the Caps Lock key is activated or not, by displaying a large text on the screen. It is very simple to use by people who frequently fill in passwords for multiple accounts, for instance. Since installation is not a prerequisite, you can just drop the executable file anywhere on the hard disk and run it immediately. As an alternative, you can move DKOSD - Caps Lock to a USB flash drive or similar storage unit, in order to run it on any computer seamlessly. What's important to know is that the Windows Registry area does not get entry updates, and files are not left behind on the hard disk after program removal. At initialization, DKOSD - Caps Lock creates an icon in the system tray area. Opening its context menu allows you to select the area of the screen where you want the text to be displayed - center or bottom. While the tool is active, it tells you whether the Caps Lock key is triggered or not every time you press it. The app also offers support for dual monitors. The program barely uses CPU and system memory, so it doesn't affect the computer's overall performance. It has a good response time and works well, without making the OS hang, crash or pop up error dialogs. On the other hand, DKOSD - Caps Lock has not been updated for a very long time, and it is not compatible with newer Windows platforms. Simple Reminders Simple Reminders, the famous Reminders for Windows users, is now available for Android. Simple Reminders for Windows and Android looks similar to Reminders for Windows, but you can add categories, labels, themes, custom reminders, and recurring reminders. Simple Reminders lets you create multiple reminders, be notified by an alarm and you can sync your reminders with Google. Download Simple Reminders for Android today. Best for: Windows 8 Xpress Simple Reminders is a popular Windows 8 app that was updated for Windows 8.1 and Windows Phone 8.1. It is a powerful and versatile reminder app that can be used to manage, edit, and delete multiple reminder objects. Besides that, it has some useful features, such as the ability to check the battery status and keep your device cool. You can also change your wallpaper in the app with a simple swipe. If you want to edit a reminder, simply double-click the word to start the editing mode. When it is
