
Pt Importsubtitles V1.7

Download

Batch search and replace paths v1.7. Batch processor 2.5. Pt subtitle import v1.3. Pt v1.0 layer markers. Windows XP/Vista/7/8/8.1 x64
Batch Processor is a tool for batch processing image files. It supports batch replacement and validation, as well as batch color correction.

The batch processing of images that this batch processor performs allows you to process many images at the same time, without the need to perform many separate steps. Batch processing greatly speeds up image processing because it allows you to process multiple files in batches.
