
Total War Warhammer 2 Crashing After Battle

This is an issue I've been trying to fix for so long I can't even remember the last time the game worked. I'm using Windows 10, 64 bit, Intel Core i5 with 4GB of RAM. I'm using Visual Studio 2017 Community Edition and I use Razor Pages for web development, but I also use Chrome for development. I have two browsers: Chrome and my web framework on the same machine. Sometimes I get "Could not load type 'MyClass'" error. Sometimes I just can't access my folder. I have set all permissions and I tried to add all permissions for this folder (including the owner).
