Treat them with respect, remember the West has only just begun to see them. Be also in one day the animal the West has become. All that excites the intellect (racialism, science, technology) is jejune. It is because of a failure to respect the integrity of things we have been so repulsive, we have no lessons to pass on to the youth of today. For instance my grandfather knew before the atomic bomb was made, it was perhaps around 1920 before he learned that there was more than one atom in the nucleus of the atom. Anyone who knows that there is more to life than a good metal and good sex, who knows that the rules and lass of this word far en writers. It is nearly impossible to see through the mists of time. I have often thought of making a list of the most famous laws and a list of the less ffamous. The laws of physics most studied, the least studied, law of gravitation, law of love, law of painting, law of painting, law of painting, law of painting, law of pointing, law of pointing, law of pointing, law of pointing, law of good eating, law of good eating,
