You will help an old adventurer seek the legendary lost art pieces and return their magical powers to the inhabitants of his underwater kingdom. Lost Artifacts: Golden Island is a casual strategy game with a happy plot. It offers you an exciting mix of action, adventure and strategy. A small and inexperienced group of heroes found themselves in an unusual world with a lot of things to admire. The choice of a hero is very important, since he will determine how difficult is your journey. By tackling action-packed levels, you will be able to provide enough power to the hero, restore the deadly statues, destroy obstacles and return the life-giving water to the fountains. Watch out for the bad guys. Monsters guard the statues of the warrior that reside on the lost island. It's a game of using strategy and tactics against these terrifying foes. An important feature of Lost Artifacts: Golden Island is the possibility to change the game's pace and difficulty by spending your treasure. Spend a whole lot of money and it will be easy to kill the enemies. Spend too much and your hero will not be able to destroy the obstacles. The hero will be powered by mana that he gets from the statues and fountains. If he runs out of mana, he will not be able to perform actions. Mana is restored using buildings, so it's best to choose wisely where to build them. Achievements: - Clear 6 levels and raise more than 150000 mana. - Clear 15 levels and raise more than 300000 mana. -

Clear 30 levels and raise more than 500000 mana. - Clear 50 levels and raise more than 750000 mana. - Achieve the best time for each level. Other Notes: Android devices are recommended to play this game. Lost Artifacts: Golden Island is presented by Ambrosia and targeted at all age groups. For an appropriate gameplay, we recommend the following system configurations: Screen resolution: 1280x720 pixels CPU: Qualcomm® Snapdragon™ processor or similar RAM: 1 GB Video: OpenGL ES 2.0 System: Android 2.1 and above Lost Artifacts: Golden Island is intended for an adult audience and does not encourage children to play. The ancient war turned into a competition, and the winner became the strongest nation in the world. Its people were forced to leave their homeland and settled in a distant continent.
