Key Features of Alerts Icons Pack: Optimized for Windows 7 Simple and effective solution for fixing errors and tips for using computer with ease. Large collection of Icons will give a fresh new look to your desktop. Perfect for developers and for system maintenance. 100+ Icons in 9 different categories and 3 skins. Format: Emf, Icon, Icon24, Icon16, Icon32, GIF, JPG, PSD and PNG Choose to receive notifications directly in the taskbar in Windows 7. You can view the details of your messages, and select which messages to be used as icons for your desktop. This pack contains nine different icons that can be assigned to the notifications. Personal folder is a great utility. It allows to create "virtual folders" that will appear in Windows Explorer and can be used with any application as native Windows interface. For example, I created "My books" and "My images" and when you write "My books" in any application, it will automatically open the Windows Explorer, creating a new folder "My books" under "Favorites" on the desktop. This tool is a great way to manage and organize your files without actual folders. Every page of your book is stored locally. So, if you lose or fail to save a particular page, you can easily recover it. You can even save a page as a PDF. "Bookmark manager" has many options for you. You can find bookmarks quickly using a tag search. You can create folders for bookmarks using tags. You can also find a search box to search bookmarks. You can find specific page easily using a specific tag. You can add notes to the bookmarks. You can change bookmarks using the Favorites list. You can also add your own favorites. You can also find your bookmarks using a title search, using a bookmark title. You can add a bookmark using a custom window. "Bookmark manager" is a completely free tool. SATA Status Monitor is a freeware utility that will display the current status of the Sata HDD. It will also display a detailed report of the data on the drive, as well as displaying other information about the drive. SATA Status Monitor Features: Displays the current status of all SATA hard drives. The HDD status includes working status, errors, S.M.A.R.T., S.M.A.R.T. b7e8fdf5c8

.Original artwork with transparent background. .Icons for various task and applications. .Available in many different sizes and color variations. .Compatible with Windows OS. .No extra tools required. *Note - For license key information, see the README.TXT in the zip file. sRGB color space (a standard used for color on computer monitors) uses 16.7 percent of the colors in the standard sRGB spectrum, including luminance (light and dark) but not including pure color. In order to view colors as they appear on a device, we recommend that your monitor be calibrated for accurate color measurement. More Details: We recommend using this image for any project that requires the original artwork. You may have downloaded the original artwork on our website, however, in order to provide you with more accurate product information, we would like to ask that you provide a link to the image of the original artwork or send it to your mail. Luminance (light value) is a combination of red, green, and blue intensities, or color "pulse width." Red, green, and blue are three primary colors in visual perception, the other 2 being yellow and violet. SRGB (standard RGB) color space is a standard used for color on computer monitors. It uses all three primary colors, red, green, and blue (RGB) for video displays on typical computers. More Details: We recommend using this image for any project that requires the original artwork. You may have downloaded the original artwork on our website, however, in order to provide you with more accurate product information, we would like to ask that you provide a link to the image of the original artwork or send it to your mail. In brief, Icons8 are high quality icons created by professional artists, for designers and icon designers. A great number of creative icons packed in a single folder with smart icons for all applications and tasks. Icons are available in major categories: Symbolic, Social, Branding, Miscellaneous. * For license key information, see the README.TXT in the zip file. * About the author: "Art" - means the mask can be combined with the result of the icon are visual effect. The transparency of the mask background and other background have no influence on the result of the icon. We could earn a license for your icon design, creating a product website for you
