students on Autodesk University as well as other topics. Licensing AutoCAD LT, AutoCAD Classic and AutoCAD LT2010 are all available for purchase in a perpetual license, based on the number of users. In all cases, each license covers the platform, the current release (version number) of the product, the entire suite of utilities and applications (as long as the product is purchased), as well as versions of the product for all previous major releases (AutoCAD Classic does not provide updates to the previous major releases of AutoCAD, but AutoCAD LT does provide updates to the previous major releases of AutoCAD). Autodesk also provides support licenses for their software to run on computers without an AutoCAD license. This typically involves a yearly, or monthly, renewal. AutoCAD 2013 runs on Windows XP, Windows Vista, Windows 7, Windows 8, Windows 10 and Mac OS X. AutoCAD Classic runs on Windows XP, Windows Vista, Windows 7, Windows 8, Windows 10 and Mac OS X. Microsoft Windows Vista was certified on December 6, 2005. AutoCAD does not support Internet Explorer 8.
