Arc System Works games have been receiving great reviews from the press since the release of Guilty Gear Xrd last year, and their upcoming title for Nintendo Switch, Musou Stars, has also been getting favorable reception for being a new fantasy action role playing game that will be aiming for a bigger mainstream audience. Musou Stars is the product of a collaboration between Arc System Works and developer GREE that sees the former handling the game's core, while the latter will handle the 3D visuals and the character designs in addition to some of the features and game mechanics. GREE also has a close relationship with GungHo. I had a chance to ask the game's director and senior director at GREE, Miki Watanabe, a few questions about the game while I was at the G20 Tokyo event, and here are his comments on Musou Stars! Q: Musou Stars is originally from GREE. Could you introduce yourself? Watanabe: My name is Miki Watanabe. I am a senior director at GREE. I joined GREE eight years ago, so I am still quite young. Q: Musou Stars is a collaborative project between Arc System Works and GREE. How did this collaboration come about? Watanabe: We have worked with Arc System Works in many projects before, so this collaboration was very natural. Arc System Works had experience with a lot of genres, and they approached GREE about making a new fantasy action role playing game. I asked who the core of this collaboration would be, and the answer was Arc System Works. As a result, Arc System Works was in charge of the game design, and they made the core decision on the game mechanics. Q: Musou Stars is an action role playing game. What kind of game is this, how does it differentiate itself from other titles in the genre, and what is its gameplay like? Watanabe: Musou Stars is a fantasy action RPG. It has been half a year since we released the game demo. Musou Stars is very unique as a new fantasy action RPG. Players will first choose a character, and after that, the game takes a journey with the new character. Along the way, you will come across many different kinds of environments, so you will experience a variety of different maps. The main character of Musou Stars will have six different elements attached to them, and each element will have a unique set bff6bb2d33

20 Sep 2010 06:10:33 +0000Arika178494 at >Bull-pen Notes: Jeff Samardzija Shows Us What Happens With Tim Lincecum The Giants' best closer of 2012, Sergio Romo, has been banished to the Minors. That's bad news for the rest of the pen, especially Joe Kennedy, Joe Beimel and Jeremy Affeldt, who were already dealing with an overcrowded, over-worked bullpen. Deputy closer Sergio Romo's father saw him struggle with Yankee Stadium's late, August confluence of milestones—Sergio losing his save for the ninth consecutive game on August 24, his father's birthday—which led to the trade. “[Romo's] working hard, and there's no question he doesn't want to move,” said Affeldt. “But I think I speak on behalf of the clubhouse when I say, ‘This team needs what he brings. He's been a pro, and we're gonna need him.’ We need him, and we're gonna need him, and we're gonna respect it if he can't be here. We're gonna try to do the best we can to make him available. But he's gotta be (sorry), he's gotta be. You gotta respect that.” Joe Beimel admits, “I'm not sure what his plans are at this point, but if he moved to the bullpen he could help.” Lincecum's Week 2 loss was televised nationally, and pretty well publicized. But since then, he's been 2-0 with a 0.98 ERA with six strikeouts and no walks in five outings, and has been one of the most impressive young pitchers in the game thus far this season. “Ryan Vogelsong, Timmy still. You never know,” Affeldt said, “... [Lincecum'
