The game is an action RPG that tells the story of the world's history from the perspective of a mysterious girl, who was born from a horned wolf maiden. "EL" in the game stands for "Elden," which is the Ferenghi language word for Elden Rinde. In the game, "Rinde" is the name of a symbol drawn on the Elden Ring of the lands. The protagonist, who embarks on a journey with a fairy, originally possessed the innate power to awaken the Rinde within his own blood. However, his Rinde was sealed away during the country's warlord era. As a

result, he is desperately clinging to the memory of his past... and decides to continue his adventure in the Lands Between. A group of adventurers develops around the protagonist in his journey to uncover the mystery behind the Rinde. You can fight together with your friends in multiplayer and collect your very own items through the special equipment quests, which you can share with other players. Become an adventurer in this new fantasy action RPG and experience a haunting tale in the Lands Between! [About the characters] The protagonist is Tarnished, a cursed hero who no longer possesses the innate power to awaken the Rinde within his blood. He was born from a horned wolf maiden with tragic past, who was abandoned by a dog tamer and lived in the woods. As a lonely child, he was adopted by an old dragon before he was lured away by the mysterious fairy Syrana, who gave him a dazzling power. Then, the fairy met her fate in a castle of the villainous group known as the Devil Clan, and Tarnished suffered a great loss. The fairy's companions also perished, leaving him an orphan. Now, he dreams of a bright future and strives to protect the fragile world.

The villainous Devil Clan consists of evil overlord Thesir and his followers, who are in league with an ancient world. They spread terror throughout the lands in the form of monsters and their ultimate goal is to recruit people to participate in the Dark Grimoire Project, which is an attempt to create a new kind of beast, and use it to become the victor in the coming war. Majin, a mustachioed man, is an exorcist working for Thesir. He protects the inhabitants of the land, as well as the people who have been abducted by the Dark Grimoire Project.

Elden Ring Story

From the different timelines, mysterious art arose while being transported to the Netherworld.

“...to reach the Netherworld, the bearing of an object broke the boundary and was completely transported. Contained within the mist made of Earth and Air. The Essence of plants and animals as well as all that is formed, flowing and fading. Boundaries blurred and dried up.”

Encountered with this, the old man shouted out loudly: “This is what is known as the Nol Berar”.

They were cryic people. “Even if all trace of an Nol’s heart disappears within the Netherworld, this is proof that it exists. They were born from the Earth and Air, born

with the power of life. The inhabitants of the Netherworld are the chosen people.”

...However, the power of life has not gone astray and has been dispersed into the Netherworld. However, I am now told this story and a tale told by the inhabitants of the Netherworld. As if they are aware of the mechanics and will of the Nol's created by the old man.

“I hear the boy cry as he lunges towards his mother, who is nowhere to be seen. Why hasn't anyone come to rescue him? The motherly shout of the woman breaks through. Where is your father?”

The void that existed within me is a dwindling void—

Everyone try to make it. I have the intention of someday being a character in an LoL game who can achieve the intangible "Thalia's French fries=" =/ which were researched and approved by one of the hardest working women in eSports history, Thalia herself. But I'm not there yet. Anyone else have the same "vision"? Is there anything you can do to help us achieve the goal? --- There is a real chance that I will be making a decision within the next 4/5 months, if I don't make it by November, I'll probably be joining a mobile team. I have the honors, but the lack of core knowledge is my biggest worry. The 36-hole model is a great idea, but I don't think it would suit our current (4th) team. It should be working around a team's strengths, stats in a non-linear way. This is based on gameplay experience though, and if anyone would like to correct me or provide some feedback, that would be really helpful. I'll fix up the math if someone send me a youtube vid :p Shambles."
