The Elden Ring was once a great power. As a ruler, the first Lord of the Elden Ring, Bronte, ruled the Lands Between and held the most enchanting royal seat. He was famed for his great battle spirit and summoned the souls of fallen warriors to strengthen his fighting spirit. Now a long time has passed since that time. Only five Lords have since ruled the Elden Ring. The power of the Elden Ring has dwindled. The last Lords of the Elden Ring are on the brink of extinction. Players who do not wish to give up hope for the future and want to regain the power of the Elden Ring must rise as one to reunite the broken Elden Ring. The time has come for a new era to begin and to rise. Now, prepare to join the true warriors who will shape an age of power. ---- Disclaimer: (1) We are not associated with anything posted on this site, and have no control over anything. (Japan, PS Vita) - When the title of the game in Japanese is translated into English, it will be easy for an English speaker to think that it's an RPG. But I think it's not. Sorry for telling you this, but it's really an action RPG. Still, this is a fun action RPG, and with the English translation, a lot of people can play it. The action RPG will start right after you clear the prologue and you are dropped into the main story. Right now, there's a huge amount of place to explore, and it's quite exciting. I've played a lot of action RPGs, and I think the main part of the game is its story. When you start up the game, you'll have to make a party for it. The party consists of up to six members, and you'll have access to five different weapons. They have weaknesses and strengths, so they have a balanced characteristic, and they will have different results when you use the weapon. The action RPG is a kind of action-oriented RPG with one aim, and that's to defeat enemies, so it's a simple thing to understand, but the tension and the feeling of getting stronger with each enemy defeated is amazing. As you fight enemies, the story of the game will continue. Each enemy has its own story and their own position in the story. Even if you defeat an enemy, there's a possibility that they will kill you. I feel like the enemies have a lot of life and emotion. The amount of potential for the story that the characters can have is huge, and the story of each character develops in a different way. So it's the same for the characters, but I feel like there's more for everyone. There are three main factions in the game, but it's not really set that way. Because of the variety of the storyline and the huge amount of characters that can be involved, I didn't really get bored. I think if you stop for a while and don't play the action RPG, you'll start to feel bored. Like, you'll start to feel sad for not playing the game, so to prevent this bff6bb2d33
