"In a myth that has existed since ancient times, humans have always sought the answer to the question: what makes a man human? In the philosophy of the new fantasy action RPG Yggdra Union, we believe that it is the journey of a man who falls to his knees before life, and the spirit in his heart that spread throughout the Lands Between. For this

reason, Yggdra Union attempts to create a game that faithfully expresses that spirit. The Lands Between are the subject of legends in all fantasy literature. While their number is unknown, the most important myths tell of a realm with great beauty and charm where gods and human beings, gods and spirits walk among each other without any boundaries. In the legend of the new fantasy action RPG Yggdra Union, a great drama takes place, where past and future, human and god, reflect on the various matters of the world. Humans and spirits, gods and monsters collide to face the evils that threaten them. In this story, the players must choose the 'destinies' of individuals and souls, and must fight against evil. In this tale, we tell of a single story that takes place in the Lands Between, where you'll encounter countless people and countless monsters that you have never encountered before. During the journey of your stories and the fantasies of everyone, you must find the 'true meaning of existence'. If you want to know more about the Lands Between, read the world of Yggdra Union

ments strange thing is that my Mac version doesnt seem to have

patch. (Automake 1.9 is ok.) I don't know how strange that is, but > we

1.11 for OS X using OS X Software Update. The one I have installed seems
to have started with the 1.11 beta and includes later versions. This
version also has Automake 1.11 but it does not seem to have the same
problem. That is the only difference I have with your MacPorts
distribution. Would installing the copy on the MacPorts site fix your
problem? James strangelative wrote on Sun, 23 December 2006 13:28 > I
