The Worldwide Leaders are competing on Xbox One X on September 27, 2018, and on PlayStation 4 Pro on September 10, 2018. FIFA 18 Ultimate Edition is coming to PlayStation 4 and Xbox One on September 27, 2018. Not satisfied with impressive network matchmaking and touch controls, FIFA 18 features a completely redesigned 2.0 engine, with the most powerful engine yet, to deliver more realistic and realistic-looking football. New contextual awareness in the engine allows it to do things like know whether the ball has been out or in play, where other players are and where the touchline is. Other changes make it easier to manage teams, as well as fixing the issue where players could dip under the ball in mid-air, letting them gather the ball and return it out of the air. In addition, the new "Player Instructions" social screen is to direct players on the pitch, with prompts like "a teammate is running blind," "take on the defender" and "pass to your preferred foot." The other big change for FIFA 18 is a full revamp of Ultimate Team. Not only will you spend your FIFA Ultimate Team coins in real-life-money packs, you'll spend your coins on actual cards instead of diamond or silver coin cards. The cards are also more powerful than ever, but they're also more limited, and you'll need to spend time developing your squad before earning even the most basic cards, letting you see through new "psychic" cards and other cards that give you information about your opponents' gameplay and team tactics. FIFA Ultimate Team introduced a new pack structure, and now that structure is here to stay. Along with a new Team of the Season, you'll also get more unique Limited Edition, Series Edition, and Stadium Edition content, along with Old Timers and Career Cards—new things designed to give you a head start in Ultimate Team. There are also some new ways to earn, including new ways to earn coins and cards. One such way, the "Seasonal Challenges," lets you earn packs by completing challenges set by EA. Completing challenges earns you packs when you unlock them. Available in FIFA 18 Ultimate Edition on PlayStation 4 Pro and Xbox One, today is the official reveal of the first-ever Team of the Season for FIFA 18. For the first time ever

I'll be honest, that's one of those things you never think about when you play a football game. But the thing about soccer is... You can't make it a career You can't make a living out of playing football. Most footballers are supported by a family who set up a living through their talents and their families, not for their talent. When you play for the national team, you do it to represent your country, but when it's over, you go home. There are around 3 million players in the Premier League - but only 50,000 are paid There are around 3 million players in the Premier League - but only 50,000 are paid. Not all those players end up with a career at the highest level. The majority of players don't make a career out of football and can't afford to live without playing - a big part of why I love playing so much. I've always wanted to be a professional footballer and loved playing football in the street as a kid, but it's a hard life.
