Explore a wild and woolly Westworld! Hack n' Slash through tough enemies! Orbs of Light emit when you're disemboweled! Awesome FFT action: high scores, secret codes, and more! Win trophies and craft weapons & gear to destroy your enemies! Craft spectacular epic endings! Play boss-level battles to unlock secret characters! Let's face it, if you haven't seen Westworld yet, you're missing out on one of the most exciting television series of all time. It's up there with Battlestar Galactica and The Office. Tell your friends and get ready for one of the most fun, cinematic games ever made. In Westworld we explored the "American West," a wild and woolly place where cowboys are only as far from lawmen as the next silver mine or bottle of whiskey. The townsfolk talk more about their pets than they do about the war, so you've got to find a way to break the back of the biggest of them all - Delos. In Westworld, you can choose between the three game heroes as you experience the story of a park under siege. However, the Delos Corporation isn't the only threat on the Wasteland. There are the shadows of the past, the reborn hosts, others in the business of making money, and more coming. Play as three main characters in one of the more expansive open world games ever created. You can play as Light, a rogue gunslinger who came to the park to kill. You can play as Strife, a master of the bow and arrow, which is a potent combination! You can play as Bernard, an engineer, who has a knack for fixing things. Play for hours through all the environments and collect a wealth of weapons, armor and collectibles. The best part is that the game isn't just a typical hack n slash game with a deathmatch mode. Westworld is a survival game, after all. Kill or be killed! Along the way, you will encounter townsfolk, bandits, and more. Collect orbs to upgrade your weapons and armor. You'll eventually make epic weapons and armor with the orbs and craft special items from crafting machines scattered around the park. These items you can then use to destroy enemies or aid you when the going gets tough.

You might call us a bunch of cowboys or a bunch of pirates, we won't care - we will find you, we will shoot you and we will bring you back to the mainland for trial. This is a first-person shooter game. Yes, that means on your feet and no, that means no 2.5D gameplay as such. You will in fact be able to aim, and its alright. No third-person view though. The game that you play is Fletcher. He's a farmer that likes to play with his dog Blue. He wants to heal the hurt and has decided to go to the forest to create a town where everyone can live peacefully. When he arrives, he discovers that people are already living there, but that they are all illegal immigrants and the police are arresting them. The player will be part of Fletcher's group that ventures into the forest. There are two game modes: 1.Single Player: Here you will play through the game in a linear fashion, with a fixed goal to achieve by yourself. It is a randomly generated mission on a randomly generated map. 2.Online Multiplayer: Here you and your friends can play together to accomplish the same goal as well. It is possible to upgrade weapons and vehicles you have collected during the single player campaign. We are gamers like you and our goal is to keep the game fun and easily accessible for everybody, so we don't keep going back to the concept of creating a completely customized game experience for one person. As for the gameplay: you can expect fast-paced gameplay, lots of action, firefights and explosions, great graphics, destructible environments and even a re-playable campaign. You can read more about the game on our website [www.fracturetheflag.com](http://www.fracturetheflag.com). What's New A new skin for the M4A1-S! Hi everyone! Amazing game, graphics are really good. I couldn't find any glitch or error in the graphics, the game runs fast and smooth. I'm not a gamer so I'm not a good judge but this is one game that you don't want to miss. A+ Graphics: I've never played a game with so detailed graphics, even then you can tell that it's not a simulator. The detail is good, no glitches or mistakes were seen in the graphics. Sound: Gameplay and Graphics! Sound is what makes this game so incredible, when the chucks hit the base, you hear the sound effect that is as if you're actually on the base, there is no glitches or garble in the sounds. If you're like me you'll be playing the game for weeks because there is no audio to it. Gameplay: Now the game will be as long as you want it to be. You don't have to be limited in that. The game has multiple game options, you can play any game mode in any scenario, you can have 10 AI players for 10 AI targets, you can have 10 AI players for 10 human targets, or you can have 10 human players for 10 human targets, it's really that simple, there is an extensive game mode section that shows you all the modes and how to play them. Additions: The best thing about this game is that you can add all kinds of maps, weapons, and AI for you to play against. All the things you see in games like Call of Duty or Halo you can get with this game, you just have to pay for it, but that's really no big deal. It's totally worth it if you think you'll enjoy it, because that's what I'm going to say about it. Overall I give the game a 9 out of 10. Fun Factor: The best game I've ever played, it's a blast! I got my friend to play this game for hours and it was tons of fun, you just gotta try it out! Overall Score: This game is the best out there and if you like FPS games you should buy this game! **of the United States Two times now? The real reason Obama is refusing to link to the Arizona Firecracker Pledge was because it included the phrase "The United States!" Just ahead of the mid-term elections, Obama needs to scare voters that the USA is going under. By definition Obama is now working for another nation. You might think that Obama wants to save America, not destroy it. However, that is exactly what they are doing and deliberately avoiding the word "United States" or sounding off this issue.
