Lionel Messi is a massive success as a footballer with consistent results, a true great talent and a mentor to every young player out there. He's also a man of endless value off the pitch, the king of social media with almost two billion followers and one of the most likeable people in football. And now he's returned to Barcelona once again after a six year spell away, putting an end to all rumours that he was going to rejoin New York City. There are no obvious financial reasons for why Messi would want to come back to the MLS, but there are hidden benefits. He's already made four appearances for the club - two friendly fixtures in the summer of 2016, as well as the club's first big test of the season against Manchester City in the group stage of the UEFA Champions League. A second appearance under Lionel Messi would be a great advertisement and beyond that, it's also a great opportunity to do some serious scouting of one of the
