Pedant's Bible: The Anatomy of English Rhetoric for the. I was not able to download the file.Q: The most efficient method of serializing data? I'm working on a system that's been in development for years, and I'm starting to evaluate some options to see what's best. Each of my objects (basically, anything that can be passed to c#'s serializer) has a unique ID of the type uint. They're all stored in a list, and I'm adding them to the list by ID using the Add method in my objects. I've been doing this for years, but I'm thinking that it's only going to get worse when it's time to move from VB6 to ASP.NET. I was wondering if I was missing any obvious benefits of serializing certain types that people are already using, or if I'm just going to have to bite the bullet and do it the way my team does it now. A: If you are using .NET you should be using XmlSerializer. That's a little different than the previous version of the .NET serializer. But you should always use XmlSerializer when dealing with .NET. The old serializer was really primitive. A: Bit serializing the GUID to a .NET guid would give you a GUID, which is better than a byte, but you've got to do the conversion yourself, and you've got to seed the id with a value that's consistent, since bitwise ANDing with the previous id would give you different values than integer division by 3. There's no real advantage to storing the guid as a byte, except if you are having issues with large numbers. There's also no reason why you need to store it in a list, unless you are serializing to other objects (which is probably not what you want to do). I'd use the binary form if I were you. A: The most efficient way to serialize data, btw, is the binary serialization. Q: How to convert nested list to one row dataframe in R I have a list of dataframe, all of them

share the same column name 'Count' but with different value. I'd like to convert it to one row dataframe with the 'Count' as the index, is there any easy way to do this?

Jellema Hogere Bouwkunde Pdf

Jellema Hogere Bouwkunde by Kerry Grau (225 edition). In the second semester, the students use software and web tools to perform searches in and downloads. Voir la description complete du PDF ePub, EPUB, doc, docx ou mobi...Chigum The chigum () is a kind of traditional Chinese wind instrument consisting of an open cylinder connected to a bowl with a hole in it, and filled with loose cane reeds. It is similar to the dumbek but smaller, and is typically made with two or three reed holes and usually seen in pairs or in small groups. Like the dumbek, it is played standing up in the left hand. See also Dumbek External links Video of chigum being played Category:Chinese musical instruments Category:Bagpipes Category:Chinese musical instruments Category:Side-blown flutesWhat you'll be able to find in our store Shipping & Returns Please scroll down to our SHIPPING AND RETURNS POLICY to find out the shipping details for the stock that we have available to you, and also what to do if your order requires special handling. Shipping within Europe FREE Shipping for orders within the European Union RATES AND TIMES Shipping rates and times can vary, depending on how quick you order, and which area of Europe you're in, but we will ship to the whole of the European Union within two weeks of order. European Union orders typically take 1-3 days to reach you depending on your location. Shipping rates and

times Shipping rates vary depending on location in the EU. The approximate shipping times are shown below. Please note: We are not able to ship to PO BOX addresses Shipping rates and times Delivery takes between 2 to 3 working days in most EU countries, but please see the following for an approximate shipping time for each country: Shipping rates and times EU and US Shipping When shipping to the US: CANADA, CHINA Shipping rates and times Shipping to Canada is very expensive, so we have to charge a lot for shipping. We highly recommend that if you're shipping to a country you aren't familiar with, that you shop around for a shipping company with a good online presence. Shipping costs will be calculated at the checkout. Shipping rates and times Shipping to China We ship to China via DHL, who have a good online reputation for quality and fast service
