\*\*\*Lightroom\*\*\*. Lightroom is a great software package that comes bundled with the Adobe Creative Cloud, which makes for a pretty powerful package of imaging and editing tools. It's also designed to be used in conjunction with Lightroom's feature-packed website, where you can preview and upload photos, communicate with Lightroom, and use Lightroom to bring photo-aware keywords to your images, among other things. Lightroom is a multi-use program. It can be used to retouch and print photographs, develop images for print, or export (or print, as it were) images for online use. \*\*\*Camera Raw\*\*\*. Camera Raw is a free program that supports RAW photography files. It has an extensive, powerful set of controls and features and works with several different RAW formats: Nikon, Canon, Pentax, Olympus, and Sony (Canon and Nikon are the most common formats). Camera Raw helps you adjust settings, such as focus, exposure, and white balance. By opening an image in Camera Raw, you can make changes to colors, shadows, highlights, and so on. After you've made the changes you want, you can open the image in Photoshop (or another photo editor), where you can alter the image, add special effects, and create collages from multiple images. \*\*\*Photoshop Express\*\*\*. Photoshop Express is Adobe's free photo-editing program. It's fast, simple, and is a great way to get a quick look at your image to make sure it's how you want it before you spend more time on it. Express's biggest advantage is that you don't have to install any programs; it works directly from the web and has everything you need. Express also supports a wide range of file formats. \*\*\*Photoshop Extended\*\*\*. Photoshop Extended, part of the Photoshop Creative Cloud, is a lot more powerful than Express. It comes with twice the features—PDF, DWG, GED, 3D PDF, and PSD files are supported. Features include layer masks, text and image effects, 3D objects, and vector image files. You can also use these features from Elements. Like Elements, Photoshop Extended lets you create and manage multiple images within it. You can view and edit images, adjust color, and use the magic wand tool to select and edit areas of an image. \*\*\* # Functions and information When using a word processing

John T. Ludlow John Talbot Ludlow (February 19, 1844 in Brooklyn, New York – July 16, 1920 in Brooklyn, New York) was an American architect. Biography John Talbot Ludlow was the son of William S. Ludlow (1803-1874) and his wife, Sarah "Sadie" (Talbot) Ludlow (1812-1864). A cadet of St. Paul's School in New Hampshire, he graduated in 1868 and then went to Cornell, where he studied architecture and civil engineering. Upon graduation, he was appointed principal of the newly established Cornell Agricultural School (now Cornell University). In 1874, he was hired to replace Henry Appleton in the architectural office of John Calvin Stevens in Boston. In Boston, Ludlow also befriended noted author Henry James, and modeled the architectural design of the farmhouse and surrounding properties in Washington Square that James lived in from 1886 to 1890. During this period, James helped Ludlow meet his longtime mentor and friend, the critic William Dean Howells, and also introduced Ludlow to leading members of the artistic community. After moving back to New York, Ludlow was in demand as a designer of country homes, but he turned his attention to designing apartment buildings, which were in demand as a result of the high cost of living in New York. In addition to designing apartments in New York's fashionable Upper East Side and elegant Chelsea, Ludlow also designed apartment buildings in Boston and Philadelphia. The most notable of Ludlow's large-scale apartment buildings is the Crosby apartment house in New York, built in 1904. Ludlow's apartment buildings are not distinguished by traditional New York City townhouse design or international style. Instead, Ludlow's buildings combined a number of different decorative features, often mixing neoclassical and Dutch revival styles and combining them to fashion what Ludlow called "a sort of eclectic compromise." The result of this eclectic style was an overall appearance of calmness and calm. Gallery Works James H. Roche House, Mill Road, Sudbury, Massachusetts, c. 1880. Cedar Rapids, Iowa (CNN) Bernie Sanders early this week made it clear: "For the first time in my adult lifetime, I'm experiencing a surge of support," he told a rally in Cedar Rapids, Iowa. His Democratic rival, Hillary Clinton, however, would not be playing around. "My approach is not to try to catch this upstart, who's exciting people -- and he is -- but to overtake him," she said in a wide-ranging interview on CNN's "New Day" on Wednesday. Clinton was, and continues to be, critical of Sanders' message, and while he enjoys the bump from his Iowa surge and media coverage, she says he has some "work to do" to make it clear that he is the best candidate to win in November. Clinton also admitted this about Sanders: "There's always going to be an unequal playing field, but I'm willing to do more." But while Clinton has sought to position herself as the candidate for those with a "leg up" on raising money (and the more traditional Clinton message), and criticized Sanders over his past, she has also found ways to make inroads on her rival. Here's a closer look at both candidates' campaigns this week: The not-so-secret super PAC Clinton, who is relying on the help of the super PAC Priorities USA, issued a six-figure TV ad buy in Iowa on Tuesday, responding directly to Sanders' announcement that he would eschew super PAC money for the race. That has led Sanders to release an ad of his own, blasting Clinton for using a super PAC to "try to shut me up." Sanders' aides say his campaign -- which has no plans to release a super PAC -- will be outspent by Clinton and her allies more than 2-to-1, but it has taken steps to ensure the billionaire class doesn't dominate. Clinton, for her part, has called out the super PACs of two key Sanders supporters, like the pro-Clinton Correct the Record and the pro-Sanders Our Revolution, for helping wealthy donors give big bucks to Sanders. "Our campaign is financed by what we get, just like yours," she told a May fundraiser. Sanders, who has released his tax returns, has already disclosed some of the donors to his campaign, and claims to be the only candidate who will not accept funds from billionaires. When Clinton began talking about super PACs
