Test your skills by building a tavern or fighting a mighty foe. Discover the mysteries of Dusk and set the stage for your own quest. Digital-only experience: Experience the endearing minimalism of the original experience of Dusk by playing on your Android or iOS device. A digital-only experience We believe that great gaming can only happen when a player gets a sense of ownership over a world. Our game has no physical elements to it; there's no box, no case, no controller... just a game on your phone! *Please keep in mind that Dusk is an experience where you take on the role of a mysterious Dusk character. Everything from gameplay to assets (and even the music!) are "built around" the essence of what we believe Dusk to be. If you enjoy Dusk but would be a little let down by this, we would be extremely appreciative if you would let us know! We'll be sharing more about the experience in future updates and finalizing a release date for as soon as possible. Game reviews will be published on the App Store, Google Play, and Amazon. As of today, we've had a successful Kickstarter and our tech has been proven sound. Thank you to all our backers for sticking with us and making this happen c9d1549cdd
