Car Wash Calendar is an incredibly simple application that will give you everything you need to manage your car wash. Based on a simple concept, the application features an intuitive interface that will allow anyone to grasp the basics in a matter of minutes. Car Wash Calendar Main Features: Intuitive user interface - Car Wash Calendar does not look like the traditional car washing managers in the industry. Most of the time they are not responsive and do not follow any standards. On the other hand, Car Wash Calendar is not only a car wash management, but a user friendly piece of software that takes everything into consideration. Simple and easy to use - With Car Wash Calendar, you don't have to call anybody in the office, answer hundreds of phone calls a day, or call back to close a deal; all you need is a computer and a mouse to make it all happen. Basic time management - If you have a set schedule, you will not need to open the app more than once in order to verify or plan for your next appointment. Printable forms - Easily print out the necessary car wash forms you need in order to receive payment from your customers. Customizable events - Create events for your car wash, such as last appointment, next service day, early bird, recurring and last appointment. You can also setup different colors to identify different events and automatically add them to the timeline. Printable reports - Easily print out reports for your car wash based on customizable dates, worker, customer, and service information. Database - Assign workers, customers, services, equipment, and more to your database, which can be filtered to show the information you need. Customized layout - Use the available options to zoom in and out of the timeline, change the background, as well as specify which activities you want to see on the view. Car Wash Calendar can be bought for 4.8 $ on sites like freewarez. Time Management Car Wash Calendar has a very simple interface and time management. It does not have any fancy features and looks like a calculator. And as the name describes it does not manage your car wash. You get a very limited amount of time to do things such as cancel appointments, set bookings, or check the invoice. If you want something more advanced, try Scheduler Pro, which lets you schedule appointments, manage them, and even cancel them (hard to be done with Car Wash Calendar). Car Wash Calendar's goal is to present you with
