For a complete discussion of how to use Photoshop and the features listed in the table below, check out the links. Feature Description Paint Bucket The paint bucket tool is used to create and fill selections. Click the Pencil tool to make a selection and then click the tool on the canvas to fill the selection with the current tool color. Alternately, you can click anywhere on the canvas to create a selection and then click Paint Bucket tool on the image to fill the selection with the current tool color. Blur The blur tool allows you to blur or "soften" or "muzzle" the edges of an image. You can adjust the amount of blur by using the Amount slider. On the Tool Options bar, click the Blur button, then set the Amount slider to the desired amount. The blur tool is great for creating a soft edge, such as in a shadow. Scroll Wheel or Arrow Keys A powerful Photoshop tool, the scroll wheel can be used to zoom into and out of an image, and to move between layers of an image. You can also use the arrow keys. You can use the scroll wheel on the tool bar to view and change layers, and to move among layers of a document. To zoom in and out, use the scroll wheel or the zoom controls in the tool bar. The arrow keys can be used to "walk" through the layers of an image. Brush, Pencil, & Eraser The Brush tool is used to paint on an image and delete areas. The Brush tool is the most common tool used to paint on an image. It consists of three tools: a brush, a selection, and a path. You can use these tools to paint with one color, paint with multiple colors, fill an area, and then erase an area by drawing in the path control. You can adjust the size, shape, and strength of the brush by using the Brush control bar. The path tool allows you to draw lines on a layer, or to trace over existing lines. If you have no path tool selected, you can use the path tool to draw a line over an existing line. You cannot change the size, shape, or shape of the brush while you are using the path tool. If you want to change the size, shape, or shape of the path, you can choose the Pencil tool to create a selection, then use the

I want to say that the majority of this blog is worth reading. It's interesting, funny, and spot on. I give it major kudos for the potential it has to be thought-provoking. The puzzle is simple: There are repeated references to the "Greater Good" in this blog. To me, that is a pretty good indication that the author is going beyond personal taste in terms of what constitutes "good" art and literature. I wonder if he reads any books which are "bad" (you know: the kind you don't think about unless someone gives you a hard time for reading them), or if he just makes fun of this stuff. Greater Good is a non-profit, non-partisan, and non-advocacy website. It does not seek to represent any particular point of view, political or otherwise. We welcome all points of view and writings, and are not opposed to advocacy. Ego is our enemy - if you are offended by a comment that's ego. We strive to be balanced, factual, fair, and impartial. For the sake of argument, let's assume that the author identifies himself as conservative. Does it still bother you that a conservative, black man writes this blog about art and literature? Is the fact that he is black a turn-off, or something he should be ashamed of? Do you agree with us when we say: Even if this blog were purely about conservative artists, it would still be worth reading? If it does bother you, I want to know why. What do you think "the good" in a novel is, in your opinion? Or, is it the "bad" that really matters? I read at least one book every day that I call "the good," and this blog is a contender for that title. You can leave your answer in the comments area of the blog, or contact the author directly via the email address below. Comments on there should be like a minimum number of people who talk and the comments should be grouped by topic. But after you input your comment, it may not show up. But if I have a question about something, I would email Brian instead of post a comment on some blog, so he could answer it directly, like he did in the past with those questions about music (which he answered this same day). On a topic of writers I have nothing to say, I usually don't give

NEW DELHI: Prime Minister Narendra Modi is preparing to take the opposition leader to task over suggestions that Arvind Kejriwal could be his son in law, saying it will amount to "shamelessness" for them to even talk about the "dirty game being played". The remark came on a day when the Aam Aadmi Party ( AAP ) said if the prime minister had an illegitimate child, it would make no difference to the country or its people. The prime minister, who is in the US for the G20 Summit, has also been challenged by the AAP for having stashed black money in Swiss banks. The party said if the prime minister had black money in foreign banks, it would make no difference to the country or its people. "It is not a question of black money or clean money. You are talking of an illegitimate child! You are talking of divorce and adultery. I feel ashamed. When the prime minister's name is being used in this very shameless manner, I feel very proud that I represent this country. People have died, for this country, for this country's honour," said Mr Kejriwal. Asked whether the BJP would retaliate, Union minister Rajyavardhan Rathore said, "What say?" To a question on if the Opposition had levelled the
