Starting on July 8, tickets will be on sale for the next viewing at the St. Louis Science Center.Dr. Maddie Bancroft-Hunt, a young but already well-established scientist in Scotland, has received a grant of over 200 million pounds sterling from the British government to further develop her premise that, early on in evolution, a race of tiny creatures which many of us are familiar with as 'jellyfish' were actually inhabitants of the earliest Earth, and thus may have been the creatures from which the development of higher forms of life began. Dr. Bancroft-Hunt has had her research confirmed by a scientific commission of ten eminent scientists, commissioned by the British government, and approved by British Prime Minister, John Major, during the spring of 1993. The
