“I'm a huge fan of the Elden Ring and after reading the preview it doesn't take long to see why. Elden Ring is the first game that comes to mind when I think of an action RPG, but it's a little more complex than most of the games I've played.” - Portal Escapist “The new Elden Ring is a fantasy MMORPG with modern graphics. The character creation and customization systems are good and the choice between male and female options as well as leveling system make this game very competitive.” - GameXplain (Indie Game Awards 2014 - Best Graphics) “With its unique concept and strong presentation, Elden Ring is a solid MMO with a blend of action RPG elements. It's a very interesting new direction for the genre.” - Fanatec Europe “Elden Ring has a polished look, but what really stands out is the enthusiasm of the developers. The main thing that attracts me to these games are the players. It's a good and bad thing that it's not easy to find other players who speak English, but there is a forum and other social network features are available.” - MMO World “If you enjoyed the look of the Elden Ring in its pre-alpha stage, then you will likely be pleased by its final product. The core combat has been updated, and the adventure design and story are both intriguing and well developed.” - MMOBomb.com “Elden Ring takes the whole action/RPG and action/adventure genre and puts it into a MMORPG and it succeeds beyond your wildest imagination...and it's as fun as one of those fast boats you see in TV commercials.” - TGC Reboot “Elden Ring is a fantasy MMORPG with a blend of action, RPG and adventure elements. It's a well-crafted game with excellent visuals, sound, mechanics, and a story that's not quite as one-dimensional as it could have been.” - MMOPlanets “The Elden Ring is a fantastic fantasy MMORPG with that distinct visual style of old school MMOs and action-RPG elements, a brutal combat system, and an interesting story, among other things.” - Gametraders' Heaven “In spite of its technical shortcomings bff6bb2d33
