Please note, the demo is playable in Dynamic Weather only, not in Dynamic Player Rendering. Here are some details: [Video PLAYER not supported] Key Features of FIFA 22: Global ELITE Update (Updated FIFA 21) Global ELITE Patch The key features of FIFA 22 are as follows: FIFA 22 introduces a new playbook with new ideas and creativity which change the way you play the game and the way you compete. This new playbook is at the heart of every single decision made from the global development team. There is a new playbook, meaning it is a completely new way of playing football; don't expect it to be familiar or comfortable. FIFA 22 introduces four major directions which help define how you play the game. The four directions are as follows: DirectPlay is a platform where we can connect directly to our audience is a platform where we can connect directly to our audience Human Playbook where we can use artificial intelligence to control our players where we can use artificial intelligence to control our players Arcade where we can play a variety of arcade-style challenges (not an action or shooting game) where we can play a variety of arcade-style challenges (not an action or shooting game) Documentary where we can explore the history of football through both visual and audio content. We also have a new Director of Football. This new role will focus on coaching, managing the playbook and player progression, and will work alongside the Technical Director and Technical Lead. . This new role will focus on coaching, managing the playbook and player progression, and will work alongside the Technical Director and Technical Lead. Enhanced Flow System to give you more control of gameplay: The HyperMotion Engine is the core technology of the game and it is what is used to set the ball in motion. It communicates the movements of each player to the rest of the game environment. The engine allows the game to respond in the most natural way to real-life player movements. In the demo, the engine registers the actions of all 22 players and the pitch conditions (e.g. wet conditions). After each action, the engine computes the result of the action and sends this information to the rest of the game code. In addition, the engine also sends the player's and the team's movement indicators (press, sprint, stand still) to our media assets. This gives us unprecedented possibilities

### **Fifa 22 Features Key:**

- 
- HyperReal Football World - Infinitely created players and environments.
  - AI - Driven Football. React to challenges and adapt to the game. Choose between CAM and SMAM (Short Pass Tactics and Marathon Passing), which have a short window of success. Learn to adapt to and learn from your opponents. Football is faster, more violent and more physical than it's ever been. Play out your own strategies against your opponents. AI is taking control and creating dramatic tactical choices.
  - Command Your Team - Choose to manage your team yourself, with your intelligent Football Intelligence system. Or have your team take over, with the AI making all the decisions.
  - Cinematics - Change camera angles, up to 10 different angles per game.
  - Contextual Awareness - Get in the game and experience the best football game yet. If you pick up the controller, you'll be fully aware of the game in 3D space. With context sensitive Player and Team Awareness you'll be right in the action and feeling what your team and opponents are feeling, as if you were playing alongside them. Player awareness is important to understanding what your opponent is doing and the situations they put you into.
  - Connection to Video Games. Connect with the biggest and most recognisable football franchises. Play with FIFA Stars. Use the ground breaking new player blueprinting system. You'll see everything from your own player, through to other players and on to the opposition.
  - Compete against gamers and all your friends with Cross Play. Play in the same game as your friends across any platform (PC, Mac, PlayStation 4, Xbox One, mobile and tablets). Play online with anyone, and show off your skills in multiplayer online.
  - Exclusive Player and Team AI - Compete against the best FIFA AI on PlayStation 4, Xbox One, and PC, made by the same people that made the authentic AI in FIFA 19
  - Gameplay Mastery - Manage your reputation through hundreds of customization options, affecting your team's training and development, skills, and formation. Buy players, learn new skills, and you'll be set to progress by the second season
  - Teammates - Use your team mates to knock and pass the ball, choosing how to set up strategy and tactics, with controls so natural you
