DIFFERENT VERSION: 3.8.17 ABOUT GIMP: This is the GNU Image Manipulation Program, one of the most powerful, versatile and feature-rich free graphics programms available. GIMP offers a set of tools for photo retouching, image cropping, and image creation, as well as painting and the ability to apply curves to an image. FEATURES: Some of the famous features of GIMP are: World's most popular photo editing software and graphic editor. Full screen, multi-monitor and undo capabilities. Tools to adjust brightness, contrast, curves and color, and more. Image modification in a professional way. Python scripting language for creating plugins and scripts. Graphical interface. Drag and drop, history and channel. The best way to keep up with the latest release of GIMP is from the official website. QUICK START: GIMP is a very user-friendly application. In the first run, you will find a new window called Main Tool Window, which is the place where you will find all the tools you need, either by clicking on the icons in the toolbar, or by pressing F1. You will find the links to the different help topics in the Help window. However, these will appear only after the first use of GIMP. Hence, on the first run, you should go to the Help menu to learn how to use all the tools. However, these are the most important: • Photo - GIMP Photo allows you to adjust and improve your photos, as well as create ones from scratch. In addition, it allows you to correct your photos taken in RAW-format and enhance them, by using an array of tools. • Adjustment Layers - Let you adjust the brightness, contrast, and color of an image using different tools. As with Photo, you can create new layers by simply clicking on the New Layer button at the top of the Layers window. You can move, resize and delete them. You can also use the Adjustment Layers to paint with certain tools, by adjusting their strength. • Layer Masks - Allows you to select parts of your image and apply new settings to them. This is done using masks, which you can adjust by using several functions. • Selections 6d1f23a050
