What is the fastest way to retrieve list of friends that are female from a facebook app? A: No access to friend details is allowed - you can only get a list of public friends. But if you want to know if a user is a female just ask for gender and genderType. Facebook documentation on querying user data: Q: Modifying the contents of a cell by importing data from Excel I'm working on automating part of an Excel file. I'm using the Module/Add-In method of doing this. I'm running into trouble when trying to make a "copy" function. In the code I wrote below, I've isolated the data I want to import. The idea is to copy from the "Description" cell in another sheet and paste in "Technical" cell. The works fine, but the paste command is sending a syntax error. The error states: "Expected End of Statement." Any help with this is appreciated. I was in such a hurry on this project I didn't spend much

Storyline The Muppet Babies is set in a parallel universe in which Kermit and Fozzie work for a record company. The game starts with Kermit and Fozzie preparing for Fozzie's Little Miss Universe pageant. Fozzie wants to give his pageant an adorable name, and Kermit suggests that they name the pageant after their favorite song from The Muppet Show. They are interrupted by Kate Monster, who informs them that Fozzie and Pepé La Puente, her business manager, have been kidnapped by a billionaire named Mr. Teena. Teena wants to hire Fozzie and Kermit as his new leading entertainers, and so he has kidnapped them so that he can use their names to advertise his new record label. Fozzie is unwilling to perform for Teena. So Kermit and Fozzie look for Pepé's other clients. They find Dr. Bunsen Honeydew and his fiancé, Princess Piggly Wiggly, at the La Puente Restaurant. Piggly conspires to get both Fozzie and Kermit to perform for Teena. Gameplay The main goal of the game is to help Fozzie and Kermit elude Teena and Pepé La Puente and make it to the La Puente Restaurant to get away from Teena. The Muppet Babies uses a unique control system, where instead of using a keyboard or joystick to move Fozzie and Kermit around, the player clicks on various objects and maneuvers Fozzie and Kermit to them.
