PIDSR Installer.rar Installation is an easy task and consists mainly of completing simple steps. The package includes the installer, the full archive, and.Rar file for the.PIDSR installer.rar. The drop-down list.. PC Windows/Mac. Avira Antivirus Free X..Human serum amyloid P influences human B lymphoblast adhesion to B cell-associated integrins. Serum amyloid P (SAP), a pentraxin of the innate immune system, was suggested to be involved in the adhesion of human B cells to vascular endothelium. This study assessed the effects of human SAP on B lymphoblast adhesion to human umbilical vein endothelial cells (HUVEC) and to B cell-associated integrins. An increase in beta 1, 2, and 3, but not beta 4, HUVEC and B cell integrin expression was induced by 100 nM of SAP. In the presence of SAP, a cell adhesion assay confirmed increased B cell adhesion to HUVEC. Pretreatment of HUVEC with anti-beta 1, 2, and 3, but not anti-beta 4, antibodies inhibited SAP-induced B cell adhesion to HUVEC. SAP-induced B cell adhesion to HUVEC was not affected by EDTA, suggesting that SAP effects are not through integrin signaling. Blocking of SAP with a monoclonal antibody (mAb) directed against a reactive site of SAP, resulted in a significant reduction in SAP-induced B cell adhesion to HUV c6a93da74d
