Chinese Caption Input In Proshow Producer V4

essential components for effective understanding ... .com/stories/3138030-chinese-caption-input-in-proshow-producer- v4-latrimmo-immersion (sorry for the english in the photo) And here's the actual question. How to apply these effects to Russian text? Maybe there is some other file in which you can apply these effects to Russian text, and not to English? Thank you in advance In Russian, it is not entirely correct to write in Latin, and you need to use Latin letters. In general, everything basically works in the proshow. But how to apply it and what to do with it, that's another story. Try the following tricks:
