
Human Bones Pictures And Names Pdf Download (EXCLUSIVE)

The human skeleton consists of 206 bones; 80 form the axial skeleton, and 126 form the accessory skeleton. The figures below show some of the main bones ... The human skeleton consists of 206 bones and is divided into: the axial skeleton (spine, skull, chest, bones of the upper and lower extremities) and the accessory skeleton (skull, lower jaw, shoulder girdle, pelvic belt and upper limbs). The human spine is divided into five sections: cervical, thoracic, lumbar, sacral and coccygeal. The shape of the bones can be flat, long, short and mixed. The figure below shows the location of all 206 bones of the human musculoskeletal system.
