Knights Elan wants to be the cavalry the warfare age forgot. They only care about the close in war and you will see it through their weapons. Weapons that have increased range, and more than a few weapons (spear, hammer, and knife) that have a secondary impact, with limited purpose. Unlike any unit out there, ELAN wants to unleash it's troops onto the battlefield and come back in a hurry when their time is served. Despite their strengths, ELAN isn't seeking to last against any permanent enemy force as they are built to be deployed and ignored. This is their weakness. It is the only weakness they have, and it is an Achilles' heel, waiting to be exploited against a single target.
