The game offers two types of split-screen and a four-player online multiplayer mode, which can be played through Sega's new online service Dreamcast Game Pals . Sonic & Sega All-Stars Racing features four player mode, which was first introduced in this game, which means that up to four players can race against each other in split-screen. Being able to race against others is very refreshing as it allows the player to play against a group of friends or against a friend from another country. Every track has unique vehicles, in which players can take control of, and each vehicle has a unique set of moves. The races play out in the same way as the single-player mode, which means that players are racing against the clock in a number of different courses in a variety of vehicles.
